

Take care of your- self this summer

If an accident happens this summer, call 1177 for advice on health care or seek help through our new app Min vård Norrbotten.

During the summer, our health care centers in Norrbotten work together to provide you with care when you most need it. See our opening hours at 1177.se. Please log in and renew your prescriptions in time. That will make it easier for our health care staff.

In case of an emergency, please call 112. All emergency departments are open 24 hours a day at our five hospitals.

And remember - enjoy everything that our magnificent county has to offer this summer, from the mountains to the coast. Recharge your batteries and visit your favourite places. It's the best way to stay happy and healthy.

Have a great summer!
